THOUGHTFUL GREEN CLEANING

A CLEANER TOMORROW. NATURALLY.™

PROZYM X™

PROFESSIONAL ENZYMATIC CLEANER & DEGREASER

CLEAN. DEGREASE. DIGEST.™

POWERFUL ENZYME + SURFACTANT CLEANING

PROZYM-X is a **concentrated** enzymatic cleaner, degreaser, deodorizer and organic waste digester. Its unique enzyme and surfactant blend breaks down organic matter at the molecular level, releasing soils, grease, oils and residues for easier removal — while helping eliminate odors at their source.

Designed for professional cleaners, restoration contractors and facility managers, **PROZYM-X** delivers exceptional versatility on both hard and soft, porous and non-porous, water-cleanable surfaces.

KEY BENEFITS

PROFESSIONAL CONCENTRATE
Adjust dilution according to soil load and application.

ENZYME + SURFACTANT TECHNOLOGY
Combines enzymatic organic-soil breakdown with conventional cleaning action.

HARD & SOFT SURFACE VERSATILITY
One concentrate for a broad range of water-cleanable surfaces.

POWERFUL DEGREASING
Effective against fats, oils and grease in kitchens, food-service and industrial environments.

ODOR ELIMINATION
Attacks organic odor sources instead of relying on fragrance masking.

READILY BIODEGRADABLE
Environmentally responsible cleaning power.

NON-CORROSIVE / LOW VOC PROFILE
Negligible VOC, complete water solubility and pH 3.8 – 4.2.

CLEAN HARD AND SOFT SURFACES

PROZYM-X is suitable for a broad range of water-**cleanable** materials.

HARD SURFACES
- Stainless steel
- Chrome
- Glass
- Laminate
- Plastic
- Tile
- Grout
- Concrete
- Sealed flooring
- Rubber
- Vinyl
- Water-cleanable wood

SOFT SURFACES
- Carpet
- Rugs
- Upholstery
- Drapes
- Curtains
- Fabric
- Linens
- Laundry
- Mats

The enzyme/surfactant blend in PROZYM-X penetrates fibers to release deposits and odors so that soils can be carried away.

PROVEN PERFORMANCE ACROSS INDUSTRIES.

DILUTION & APPLICATION GUIDE

Use the chart below to achieve the best results for your specific cleaning application.

APPLICATION	DIRECTIONS	PROZYM-X PER QUART	PROZYM-X PER GALLON	RECOMMENDED DWELL TIME
 **Glass, Stainless, Chrome & Laminate** (non-porous surfaces)	Create a spray & wipe solution for application directly to the surface. Wipe clean and dry with a microfiber cloth.	¼ oz	1 oz	None required
 **Surface Deodorizing** (restrooms, pet areas, shelters, etc.)	Light misting; apply to surface and allow to dry.	¼ oz	1 oz	**Spray & allow to dry**
 **Porcelain & Tile** (bathrooms, showers, locker rooms)	Create a spray & wipe or mopping solution. Agitate if needed, recover soiled water and let air-dry.	½ oz	2 oz	60 seconds
 **Semi-Porous Surfaces** (mats, gyms, fitness areas)	Create a spray & wipe solution or add concentrate to mop system for mats. Agitate as needed.	½ oz	2 oz	60 seconds
 **Heavily Soiled Floors** (kitchens, food processing, industrial areas)	Apply generously, scrub, let dwell, then rinse. Use mop or auto-scrubber for larger areas.	1 oz	3 oz	5 minutes
 **Heavy Degreasing / Organic Waste**	Apply to heavily soiled areas, scrub and rinse.	2 oz	6 oz	5 – 10 minutes
 **Mold/Mildew Remediation Cleaning**	Apply to affected surfaces. Keep wet for at least 10 minutes, then remove soiled solution with wiping or rinsing.	2 oz	8 oz	10+ minutes

EASY TO USE – BUILT-IN DISPENSER

1 MEASURE

Squeeze bottle to fill built-in measuring cup (up to 2 oz).

2 DILUTE

Add to clean, cool water at the recommended ratio.

3 APPLY

Use a sprayer, mop, auto-scrubber or other appropriate equipment.

SAFE. EFFECTIVE. BIODEGRADABLE.

ONE CONCENTRATE. MULTIPLE APPLICATIONS.
